## Battery-Powered Lighting

The LED wall light with a battery and motion sensor is an ideal solution for illuminating interior furniture or transitional areas. Made of plastic with a metallic gray finish, it features a built-in motion sensor with a range of 2 meters and a detection angle of 120°. The lighting duration after motion detection is 30 seconds. The lithium polymer battery with a capacity of 850 mAh provides autonomy for 360 activation cycles. Installation is done using screws or magnets. The wall light is easy to dismantle for charging.

Type of Lighting	Utility
Material	Plastic
Color	Aluminum
Type of lampshade	Opal
Power	1W
Battery type	Lithium battery 900mAh
Light color	Warm white / Neutral white / Cool white
Ingress Protection rating	IP20
